Please join the Menzies Centre for Health Governance, RegNet and People's Health Movement Australia for this launch event of Global Health Watch 6, the alternative world health report. With contributions from across the globe, Global Health Watch 6 addresses key issues related to health systems and the range of social, economic, political and environmental determinants of health, locating decisions and choices that impact on health in the structure of global power relations and economic governance.

The Global Health Watch is a broad collaboration of public health experts, non-governmental organizations, civil society activists, community groups, health workers and academics. Global Health Watch 6 has been coordinated by eight civil society organizations – the People's Health Movement, ALAMES, Health Poverty Action, Medico International, Third World Network, Medact, Sama and Viva Salud.
