GRADUATE CERTIFICATE OF CRIME, RISK AND RESILIENCE

#1 in Australia

ANU is ranked #1 in Australia for 12 disciplines across humanities, arts and social sciences.

*QS World University Rankings by Subject 2021

The criminological threats and governance challenges confronting police, justice, regulatory and security actors are increasing in our networked world. The significance and complexity of these issues are in-turn exacerbated by the compounding effects of systemic crises, for example Covid-19 pandemic and climate change, which generate significant disruptions and uncertainties. Combatting harmful and illicit activities in the face of disruptions, crises, and poly-crisis therefore requires innovative and holistic strategies for conceptualising and addressing crime, risk and resilience and the Graduate Certificate in Crime, Risk & Resilience (GCCRR) has been developed with this purpose in mind.

Why choose this degree?

Taught by experts based at the world renowned School of Regulation and Global Governance (RegNet), this program is a rich interdisciplinary training experience. Graduates will develop knowledge and skills which will enable them to gain professional recognition as change agents and thought leaders across multiple sectors and

domains that are working to prevent and reduce criminal harms in the face of growing complexity.

Our teaching team includes an unparalleled group of researchers and regulatory practitioners with specialist knowledge of behaviour, construction and urban environments, crime, environment, health, justice and technology.

Provider: School of Regulation and Global Governance, (RegNet), ANU College of Asia and the Pacific

Duration: 6 months full time/ 12 months part time

Units: 24

Teaching Mode: Online or In person

Degree structure

Mandatory 12 units (2 courses):

REGN8013 Crime, Governance and Security (6 units)

REGN8050 The Policy and Practice of Regulation

ONE of the following courses:

REGN8022 Governance in a Complex and Uncertain World (6 units)

REGN8056 Complexity, Risk and Resilience (3 units)

Remaining units from 'Crime and Governance' stream:

CRIM6002 Organised Crime (6 units)

CRIM6010 Cybercrime: an introduction (6 units)

POGO8076 Corruption and Anti-corruption (6 units)

REGN8005 Restorative Justice in the World (6 units)

REGN8012 Special Topics in Regulation and Governance (6 units)

REGN8018 Consumptagenic Systems (3 units)

REGN8023 Governing Global Migration (6 units)

REGN8024 Regulating Nuclear Capabilities (6 units)

REGN8049 Regulating Disruptive Technologies (3 units)

REGN8051 Regulating Complexity in Asia (3 units)

REGN8054 Global Business Regulation (3 units)

REGN8055 Compliance and Defiance (3 units)

Admissions

Entry requirements

A Bachelor degree or international equivalent is required. Minimum GPA 4/7.

All applicants must meet the University's English language admission requirements for students.

Admission to most ANU programs is on a competitive basis.

Applicants who do not hold a bachelor degree or an international equivalent with a minimum GPA of 4/7 may apply to admission based on:

- Graduate Diploma or international equivalent with a GPA 4/7; or
- Graduate Certificate or international equivalent with a GPA 4/7; or
- 24 units of courses in a postgraduate program a GPA of 4/7; or
- Graduate Records Examination (GRE) General test, completed no more than 5 years before the time of application, with a minimum score of 155 for Verbal Reasoning, 155 for Quantitative Reasoning and 4.0 in Analytical Writing and a minimum of 3 years full-time

equivalent work experience at ANZSCO Skill Level 1 in a field related to the program; or

e) A minimum 5 years full-time equivalent work experience at ANZSCO Skill Level 1 in a field related to the program.

In line with the university's admissions policy and strategic plan, an assessment for admission may include competitively ranking applicants on the basis of specific academic achievement, English language proficiency and diversity factors.

Skills and expertise

Cognate disciplines

Criminology, Development Studies, Law, Political Science, Policy Studies, Psychology, Security Studies, Sociology, Business Studies.

Skills

Enhancing the resilience of established crime control and policing institutions and security governance networks in turn requires a new generation of working professionals and recent graduates with: a rich understanding of established crime control concepts, processes, models and practices; expert knowledge of the core regulatory principles and practices; and the ability to recognise and adapt to opportunities and risks across domains, using recent advances in systems-level thinking. The Graduate Certificate in Crime, Risk & Resilience has been developed with this cohort in mind.

Career paths

This graduate certificate is designed for professionals who are engaged in governing criminal threats, or who are designing, implementing or enforcing regulatory systems within Australia, Asia or the Pacific, as well as those seeking to enter the field of professional regulation.

The program uses case studies, hands-on assessments and recognised examples of regulatory excellence from Australia, Europe, North America and Asia and the Pacific. It has a collaborative learning environment that draws on regulatory scholarship as well as the experience of different regulatory actors and course participants.

How to apply

2023/24 application deadlines

Domestic applicants: 30 June 2023; 31 January 2024

UAC Code: TBC
